## **IMPORTANT**

---

This price list cancels all previous lists and is SUBJECT TO CHANGE WITHOUT NOTICE.

State grade of stock wanted on every order and in every instance.

Orders received without the initials of customers, or without full and complete address, will be returned.

We reserve the right to cancel all orders on which the reports we get are not satisfactory.

Do not sell any varieties not priced herein.

Our stock is sold for CASH ON DELIVERY ONLY.

Six may be sold at the dozen rate.

We recognize no agreement not written on the original order sent us—nor do we waive any part of the contract printed on our order blank.

We cannot promise to deliver, or ship orders on any specified date. We cannot accept such orders. The seasonable nature of our business prevents this.

## FOREWORD

This is the seventy-third year of our business—in the same family, now managed by the third generation.

If age, experience, continuity, and a gradually increasing volume of business each year are assets, then we have been and are successful.

Emerson's advice to "hitch your wagon to a star" is good for both salesman and planter. Our catalog and this annual price list result from experience and intimate knowledge.

What we offer is worthy—the descriptions are true. The only question the orchardist must decide is what varieties will fit—answer his purpose.

And for this situation, we are provided—our experienced fruit men can help decide as to varieties—our landscape department as to choice of ornamentals.

The essence of the above is—we give our customers service. Every operation from the propagating to packing—service is stressed because good service means success and that is why, altho born in 1850, we are still growing.

### PEACHES (Cat. 67-79)

Freestone (F)      Cling (C)      Semi-Cling (SC)

Our peaches are grown from the wild native pits, especially gathered for us in the mountains of North Carolina and Tennessee. These are free from peach yellows and "little peach," which are bacteria that can be transmitted by the pit. On these healthy seedling stems we bud our selected buds of the desired varieties.

**SPECIAL:** All peaches sold for Fall delivery will be 20c each extra over and above the prices given herein. We strongly advise the spring planting of peaches.

## SPECIALS IN PEACHES

**THE GREAT "SOUTH HAVEN"** (Trade Mark  
Registered in U. S. Patent Office)  
(Cat. 69-76-80-81)

### Our New Peach

Our new South Haven peach is so hardy, such a good bearer and so near a perfect market variety, ripening two weeks before the Elberta, and thus extending the season for commercial peaches that it deserves special consideration by every salesman and orchardist, who grows peaches commercially, and to protect ourselves and the customer, no orders will be accepted by us for this variety unless the special agreement covering the sale of all South Haven Peaches is signed by both customer and salesman and accompanies the order. These blanks will be supplied to all our salesmen—should be written and signed in duplicate so that the customer will have one for reference, as well as the original, which must accompany the order.

Hariest of all worth-while commercial sorts. Ask for Special Circular about this peach.

## The Greatest Plum Ever Introduced to the American People

**THE "AUSTRIAN PRUNE" PLUM** (Trade Mark  
Registered in U. S. Patent Office) (Cat. 81-82)

Customer limited to 36 trees each of this variety until further notice.

Our own introduction—Greatest of all plums. The most productive, the finest flavored, the thickest fleshed, the smallest pitted of any plum known to date. Absolutely without equal for dessert purposes. The original tree has now borne twenty-three annual crops, with never a failure.

The introduction of a new variety of fruit is costly. We feel that we should have some protection, as well as our customers, so that both the customer and ourselves will get the resultant profit from the wonderful quality of the Austrian Prune Plum, therefore, no orders will be accepted for the Austrian Prune Plum unless the special agreement covering the sales of this variety is signed by both customer and salesman and accompanies the order. These blanks will be supplied to all our salesmen—should be written and signed in duplicate so that the customer will have one for reference as well as the original, which must accompany the order.

## CACO GRAPE

We offer this highest quality of all hardy grapes in one year vines only, but because it is an exceptionally strong grower these one-year vines equal the two-year select of other varieties. This is the most vigorous growing of all grapes.

Make no mistake. We offer the Caco, whose parentage was Catawba and Concord, as one of the most beautiful as well as extremely hardy and delicious of all grapes. Every family should have enough for their home use. Color red.

**Greening's Trees Grow**

# Greening's Own Growing, Carefully Graded Selected Specimen Evergreens

The following list of Evergreens is selected from the best, well formed trees in the nursery rows. They will be carefully dug with a large Ball of Earth and sewed up with burlap to hold the earth intact, so as to overcome, to a certain extent, the difficulty of transplanting Evergreens often experienced when they are dug and handled in the old way.

Large Evergreens, especially, cannot be transported with any degree of success without being dug with Ball of Earth.

Our Evergreens are grown in heavy soil of a clayey nature. The reason for doing this is that when they are dug for shipment the earth clings to the roots and the root system is not disturbed in the process of digging. Evergreens can be transplanted with success during the spring season.

Please order them for spring delivery only.

Our prices include cost of boxing, also freight charges to destination, and these two points plus the fact that all Specimen Evergreens are dug with ball of earth which is carefully sewed up with burlap should be taken into consideration.

## HARDY FLOWERING SHRUBS

(Cat. 138 to 155)

### Please Note

The Shrubs are alphabetically arranged as in the general catalog under their botanical classifications, but after each the COMMON name is given in caps, where there is a common name.

For quick reference, we give color of bloom, time of bloom and height or other leading characteristics of each variety.

The page of the catalog on which the variety may be found is also given, that fuller description may be had if desired. Thus: (Catalog 120) means the variety will be found fully described on page 120 of catalog. We also price a few varieties in this issue which are not in the catalog.

An index of COMMON names is also given on the inside back cover of this price list.

## ABOUT OUR REGISTERED TRADE MARK AND DISHONEST COMPETITORS

Our Trade Mark shown below is placed on every bundle and bale of trees leaving our Nursery. This is done that protection may be given to all our customers, and is our guarantee that each tree, shrub or plant, from the time of propagation to the time it is shipped, has had the care necessary to its best growth.

We cannot stamp our name on our products, but we securely attach our Trade Mark thereon, which will protect you against unscrupulous agents and dealers who claim their stock comes from our nursery.

As our salesman you will carry credentials and can prove you represent us.

## Our Guarantee

WE GUARANTEE ALL STOCK TO BE TRUE TO NAME. We exercise the greatest care to have our stock true to label. Should it occur however, that some stock proves untrue, we will cheerfully replace all such stock, or refund the money paid, after receiving satisfactory proof thereof. It is mutually agreed however, between the purchaser and the party contracting, that we shall not be held liable for damages in such case, further than the replacing of said stock, or refunding the money paid for same.
